TARIFF FORMAT

- A. Sheet Numbering** - Sheet numbers appear in the upper right corner of the sheet. Sheets are numbered sequentially. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. Sheet Revision Numbers** - Revision numbers also appear in the upper right corner of each sheet. These numbers are used to determine the most current sheet version on file with the LPSC. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc. the LPSC follows in its tariff approval process, the most current sheet number on file with the Commission is not always the tariff sheet in effect. Consult the Check Sheet for the sheet currently in effect.
- C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.A.
 - 2.1.1.A.1.
 - 2.1.1.A.1.(a).
 - 2.1.1.A.1.(a).I.
 - 2.1.1.A.1.(a).I.(i).
 - 2.1.1.A.1.(a).I.(i).(1).
- D. Check Sheets** - When a tariff filing is made with the LPSC, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new sheets are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some sheets.)

SECTION 2 - RULES AND REGULATIONS (CONT'D.)**2.15 Taxes and Fees**

For all services other than Debit Card Service, state and local taxes (i.e. gross receipts tax, sales tax, municipal utilities tax) are listed as separate line items and are not included in the quoted rates. Governmental assessments, fees, license, or other similar taxes or fees imposed upon the Company shall be added pro rata, insofar as practical, to the rates and charges stated in the Company's rate schedules. Company shall add to the bills of the Customers an amount sufficient to recover any such tax or fee.

2.15.1 Public Telephone Surcharge

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all interstate, intrastate and international calls that originate from any domestic pay telephone used to access the Company's services. This surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with the Company's service, applies for the use of the instrument used to access the Company's service and is unrelated to the service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the "#" symbol).

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

The Public Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.

3.9 NewSouth NewConferencing Service

3.9.1 General

NewSouth NewConferencing Service is a conference calling service that provides the Customer with the ability to hold a conversation with multiple participants simultaneously via telephone. The Customer makes a reservation specifying the estimated conference bridge time (or periods of time), number of participants, and meeting leader's name. Additional conference calling features may be requested at that time. The conference call may be selected as either automated or attended. Currently, a toll-free method of access is available. Tones will indicate entrances to/exits from the conference once it is underway.

3.9.2 Conference Types

- A. **Automated Meet Me Toll Free:** The Company provides the Customer with a toll-free Conference telephone number and security code when the Conference Call reservation is made. At the scheduled date and time, each participant dials into the Conference using this number and pass code. An Automated Conference Attendant will greet and acknowledge each participant's entry into the call. Tones will signal entrances to and exits from the Conference once it is underway.
- B. **Operator Assisted Toll Free:** The Company provides the Customer with a toll-free Conference telephone number when the Conference Call reservation is made. At the scheduled date and time, each participant dials into the Conference using this number. A live attendant will greet each participant and take the host and company name to enter the participant into the call. Tones will signal entrances to and exits from the Conference once it is underway.
- C. **Operator Assisted Dial Out:** At the scheduled date and time for the Conference, a Company Conference Attendant calls each participant and places them into the Conference. Tones may be used instead of announcements to indicate entrances to exits from the Conference once it is underway.
